Subject: FW: National War Monument - Cenotaph- Target hardening not to be undertaken

Good Afternoon;
It would appear based on below that PSPC will not be re-installing the temporary fencing at the National War Memorial, as per below.

Regards
Brad Paradis

Crystal,

Below is the written request from command center at this point not to re-erect the fence for security concerns and associated risks.

Please let me know if you need further clarification.

Hi Catherine – please see below concerns raised by the OPS currently in the NCR CC. The email is addressed to Jeff (my team) and the coordinator for the City of Ottawa. Nic Claveau and Brad are also aware.

Regards,

Caroline Mockler

Hi Brad / Nicolas – as discussed on the call a moment ago.

I believe Kim is the coordinator at the City of Ottawa. I will certainly share with you if I see any other information. I think this is the written confirmation that the NCR CC have concerns about re-instating the fence.

Kind regards,

Caroline Mockler

Jeff and Kelly,

Pursuant to our conversation and in consultation with COMMAND. We are requesting that the Cenotaph NOT be target hardened with fencing. COMMAND and planning have a fear that the fence may be used against Police and enforcement may be compromised if it remains in place. The base of the fences are potential weapons of opportunity which may be used in any enforcement and public order response.

Many thanks in advance

Brent MacIntyre 1505
NCRCC Operations Chief
